

LET'S SHAPE THE  
FUTURE OF AGRICULTURE  
TOGETHER

At ADDCON, innovation and quality come first. As a member of the ESSECO Industrial Group, we refine chemicals into sustainable and efficient specialty products for a wide range of industries. Our location in the Bitterfeld Chemical Park provides ideal conditions and a strong network that fuels our innovative strength.

## Be a part of the ADDCON World!

Join a successful, mid-sized, and internationally active company.

To support the expansion of our global activities in animal nutrition, we are looking for a

### **Productmanager (m/f/d) – Ruminants**

**Focus: Chemical & biological silage additives and feed supplements**

#### YOUR RESPONSIBILITIES:

Do you enjoy using your expertise to inspire customers and win them over for our products and services? Then get ready for your new area of responsibility:

- Independent management of all product lifecycle activities for existing and new products in the ruminant segment
- Coordination of workflows across departments for our ruminant product lines
- Responsibility for the development and enhancement of our product portfolios
- Creation and presentation of lectures and training concepts on current topics in ruminant nutrition and silage
- Development, planning, and implementation of our global marketing strategy
- Collaboration with local, national, and international experts, consultants, and advisory bodies

#### YOUR SKILLS & STRENGTHS:

**What matters most to us is your passion for ruminants...**

- A degree in agricultural sciences, animal sciences, or a comparable qualification
- Interest and hands-on experience in silage, modern cattle husbandry and nutrition
- Solution-oriented and pragmatic mindset
- Excellent spoken and written English skills
- Willingness to travel internationally
- Strong communication and organizational skills, and a love for global collaboration

**...and a genuine enthusiasm for silage and modern agriculture!**
